

Managing Your Home Learning- use your school timetable and individual “Classrooms” rather than your “to do list”.

1. Find your timetable. This has been emailed to you, so go to outlook to view it (just search “outlook” in the internet and then sign in).

3. Open Google Classroom and look for the class. Use the Class code from your timetable. This one would be 8E1/En1.

Mon
En ASU S9 8E1/En1

4. Open this classroom and locate your work for the day. Be aware that it might not appear on your “to do list”. It should be an “assignment”, but check “materials” too.

5. Do this for each class you have that day and try to get the work completed and submitted that day if you can.

6. Make sure you know when your “Live Lessons” are and that you are on time. **These can be done on a phone.**

7. Try your hardest. If you need help, contact your teacher, preferably with a private comment or email.
