Talaxy instructions for parents

Go to https://tqa.talaxy.app
don't Google for Talaxy as it may take you to another school's version.

Click **Log In** top right

If this is your first time logging in, click Register

Enter the email address the Quest has on record for you and pick a password. Then click Register.

You should now be able to sign in with these credentials.

If you would like to use a social media / 3rd party account to sign in, please select one of the options and follow the instructions

Sign in with

Google Microsoft Facebook Apple SIMS

Alternatively, you can sign in to https://idp.tascsoftware.co.uk then select "External logins – Manage"

You can set up Two-Factor authentication on this page, too.

You can continue to Talaxy from this screen by clicking the Talaxy icon at the bottom.

Note, when you log in for the first time, there will be a red dot above the child's head which will be a cumulative count of all achievement, behaviour & documents for their entire history at the Quest. Once you have clicked through each item & document, the counter will go down.

Additionally, the counters for Achievements and Behaviour is a grand total, rather than the current academic year. We will be feeding this back to the software vendors.
